

On the Subject of Shufflewords

Five passwords. That secure enough for ya?

This module consists of a 5×5 grid of letters.

Pressing the arrows will shift the row/column one space towards it, wrapping the nearest letter to the opposite side of the module.

The desired state of the grid has all five rows or all five columns filled with a valid english word reading from left to right/top to bottom.

Press the submit button once the grid is in a valid configuration.
